Total Apprenticeship Candidates refers to the total number of apprenticeship candidates who wrote a Red Seal exam in a calendar year.

Total Apprenticeship Candidates who Passed refers to the total number of apprenticeship candidates who passed the Red Seal exam in a calendar year, on any attempt.

Apprenticeship Candidate Pass Rate is calculated as the number apprenticeship candidates who passed the Red Seal exam in a calendar year divided by the total number of apprenticeship candidates who wrote the Red Seal exam in that calendar year.

Number of attempts is the cumulative number of Red Seal exam attempts.
