----------------------------	---	-----------------------

Sponsor / Employer Statement:

The following section lists the topics normally covered in the Road Builder and Heavy Construction Foundation training, which is a prerequisite to entering an Asphalt Paving / Laydown Technician apprenticeship. In order to be exempt from Road Builder and Heavy Construction Foundation the apprentice should have demonstrated that they have already acquired similar knowledge and abilities. **It is important to note that content taught in the Road Builder and Heavy Construction Foundation may not be covered again during the Asphalt Paving / Laydown Technician technical training. Employers should review the content for all technical training on the Program Profiles. Individuals must meet all requirements below.**

Asphalt Paving/Laydown Technician

Please check:

- Worksite Health & Safety Practices
- Environmental requirements dealing with spill control and sediment control
- Knowledge of basic heavy equipment systems and attachments
- Basic soil mechanics and aggregates
- Basic Civil Engineering (slope measurement, stakes, angular measurement and basic use of hand and laser levels)
- Principles of Hot Mix Asphalt
- Principles of concrete placement and curbing

By signing this document I confirm that this apprentice has the experience and knowledge to go directly into the trade indicated above. I request hereby that the ITA waive the requirement of completing the Road Builder and Heavy Construction Foundation Course.

In order to be exempt from the Road Builder and Heavy Construction Foundation the apprentice should have demonstrated that they have already acquired similar knowledge and abilities.

Sponsor / Employer Signature:	Date: (YYYY/MM/DD)
-------------------------------	--------------------

Note: It is at the sole discretion of an apprentice's Sponsor (employer) to determine whether or not an apprentice has the work experience and knowledge necessary to be exempt for Road Builder and Heavy Construction Foundation as an Asphalt Paving / Laydown Technician.

This form must be signed by the apprentice's current Sponsor (Employer).
