Subject **Transition to Harmonized Program**

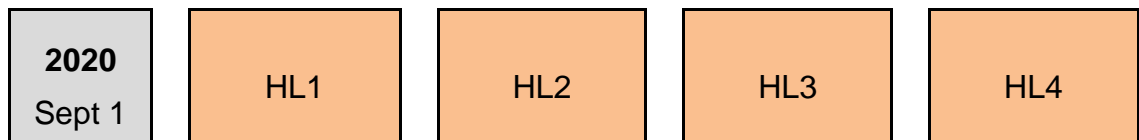

From ITA Program Standards

Effective Date September 1, 2020

Information On January 29, 2020 ITA Program Standards issued [OPSN 2020-001](#), which detailed the changes to the Powerline Technician Program as a result of the Harmonization initiative, and announced the implementation of a revised Program Outline, effective September 1, 2020.

ITA Program Standards consulted with the Training Provider that delivers the Powerline Technician program and considered the input of our internal partners. The transition to the harmonized program is represented in the graphic below. We have also ensured that there are options for all current apprentices to complete their apprenticeships.

POWERLINE TECHNICIAN: TRANSITION SCHEDULE

ITA will undertake a communication initiative that will ensure that all apprentices, employers, and other internal and external partners are aware of the changes to the program. Please be aware that the transition plan will be re-evaluated and updated as needed over the next year.
