Subject Transition to Harmonized Program Update

From ITA Program Standards

Effective Date April 1, 2021

Summary: Please begin offering **Harmonized Level 3 (HL3) as scheduled for April 1, 2021**. Also, dual stream Current Level 3 (CL3) alongside HL3 as needed to accommodate apprentices who have completed Current Level 2 (CL2).

For more information about delivering gap training or dual streaming, see below.

Background On March 2, 2018 ITA Program Standards issued [OPSN 2018 003.1](#), which detailed the changes to the Steamfitter/Pipefitter Program as a result of the Harmonization Initiative and announced the implementation of a revised Program Outline, effective April 1, 2019. Further to this, on September 20, 2018, ITA issued a [Program Update](#) announcing the [Transition Plan](#), summarized in the graphics below:

Gap Training: For information about **how to determine which program to register an apprentice in**, please refer to the [Registration Guide for Training Providers](#), or contact assessmentscoordinator@itabc.ca.

Gap A Training at HL2

- Apprentices with Current Level 1 (CL1) or Current Foundation (FDN) who transition into the harmonized program require gap training in order to receive credit for HL1.
- Apprentices with Harmonized Level 1 (HL1) or Harmonized FDN do not need to take gap training.
- Gap training is 30 hours; delivery mode and schedule is determined by the training provider. However, it is important that the gap training is completed before the end of HL2.

Dual Streaming: For information about **how to determine which program to register an apprentice in**, please refer to the [Registration Guide for Training Providers](#), or contact assessmentscoordinator@itabc.ca.

Where dual streaming is indicated in a transition plan, **apprentices must remain in their program; transitioning is not allowed.**

- Apprentices who have completed CL2 cannot transition into the harmonized program. They must take CL3. **(i.e., CL2 take CL3)** Please do not allow apprentices in the current program to register in HL3, as this will result in serious gaps in their training.
- Apprentices with Harmonized Level 2 (HL2) must take HL3. **(i.e., HL2 take HL3)** Apprentices who have completed the previous level in the HL program must take the next level in the HL program. Allowing apprentices to register into the CL program will result in serious gaps in their training.

Example

HL2 apprentice must take HL3. **Do not register this apprentice for CL3.**

CL2 apprentice must take CL3. **Do not register this apprentice for HL3.**
