Preparing to write the Red Seal

http://www.red-seal.ca/images/Assist_to_Can_Final.pdf

If you are taking an Interprovincial (Red Seal) examination, the Red Seal website offers a number of excellent resources to help you prepare. These resources include:

a. National Occupation Analysis (NOA): This document describes the skills and knowledge required to perform the duties of the trade. Each NOA consists of blocks; each block is divided into tasks and each task is divided into sub-tasks. Red Seal examination questions are specifically based on the NOA sub-tasks. http://www.red-seal.ca/resources/n.4.1-eng.html

b. Interprovincial Red Seal Examination Preparation Information Guide: This document describes how to use the NOA to prepare for your examination. From the NOA structure to study plans, it gives you a detailed approach to examination preparation. (http://www.red-seal.ca/images/ATC-index-eng.html)

c. Examination Counselling Sheet: The examination counselling sheet provides you with a breakdown or weighting of the percentage of questions for each topic area on the examination. Most Red Seal examinations have between 100 and 150 questions.

d. Sample Question Library: Sample questions on the Red Seal website show you the structure and phrasing of the types of questions you will be asked on the examination.

To find the Red Seal support material for your trade:

1. Go to: www.red-seal.ca
2. Click: Red Seal Examinations
3. Select: your trade name
