Who Can Apply?

Applying to Challenge Certification

If you have significant work experience as a Tidal Angling Guide (TAG) but have never been certified in Canada, you may apply to challenge the certification. Your application must document your work experience in the TAG trade, and you must pay a \$120 fee to have your application and work experience assessed.

If ITA approves your challenge application, you must pass these requirements **within 12 months of approval** of your application or you will have to reapply and submit a new assessment fee. Successful completion of the challenge will result in certification in your trade.

How Do I Apply?

What do I do to apply?

Please read these instructions carefully before completing your application. All the information you submit must be in English. If you have any questions, contact ITA Customer Service by phone at 778-328-8700 in the Lower Mainland, or toll-free at 1-866-660-6011 from other parts of B.C., or email customerservice@itabc.ca.

To apply for certification challenge you must:

- Complete an application form
- Provide reference(s) that can confirm you have the minimum required number of hours of hands-on work experience in the trade, and experience performing most of the required job tasks. This does not include time spent in management, supervisory duties, or attending training courses. (Note: The hours and job tasks required are listed on the *Employer and Statutory Declaration of Work Experience* forms for this trade)
- Submit your completed application to ITA
- Be able to write your exam in B.C. Your application will be a single package consisting of:
 - One Application Form (Application – Certification Challenge)
 - One or more Declarations of Work Experience forms (Employer Declaration of Work Experience and/or Statutory Declaration of Work Experience)
 - Confirmation of required prerequisite certifications – copies of certificates must be included

Where do I get the forms?

To locate the forms for your trade:

On the ITA website Home page, type “Tidal Angling Guide” into the search box on the top right corner of your screen and hit enter. Click the first result listed, the Tidal Angling Guide page. You will find the application form, as well as these instructions, near the bottom of the page. Print out the forms and complete the application.

Richmond, BC V6Y 3T6
Tel: 778-328-8700
Fax: 778-328-8701
Toll Free: 1-866-660-6011
customerservice@itabc.ca

How do I know the requirements?

The first paragraph the *Employer Declaration of Work Experience* form tells you the minimum number of hours of work experience you must have to apply for certification challenge.

The same forms also tell you whether any prerequisite credentials or certificates are required. If prerequisite credentials or certificates are required, they will be listed in the *Confirmation of Prerequisite Credentials or Certificates* section.

How do I submit my application package?

After completing your application, use the following checklist to ensure that all required documentation is attached to your application and that all forms are complete. Incomplete applications will not be processed and will be returned to you.

- A completed *Application – Certification Challenge* form showing that your total work experience in the trade meets the minimum total hours required for your trade
- Declaration(s) of Work Experience – One *Employer Declaration* form for each employer you listed on the *Application to Challenge Certification* and, one *Statutory Declaration* form for each period of self-employment work listed on the same form, or for which a former employer was unavailable to complete an *Employer Declaration*.
- Copies of Prerequisite Certifications
- Make sure all documents are in English
- Cheque, money order, or proof of online payment of the \$120 assessment fee. Payment by credit card, cash or debit can also be made at ITA Customer Service when your application is submitted.

Your completed package can be sent by mail, courier, fax (778-328-8701), or email (customerservice@itabc.ca) to ITA. You can also deliver it in person to 800 – 8100 Granville Ave, Richmond BC V6Y 3T6.

What happens next?

ITA will receive and assess your application. Once your work experience has been verified with your direct supervisor(s) and/or references, we will notify you of the results by e-mail. This usually takes about 6 weeks, but more time may be needed if employer(s) cannot be reached or if some of your work experience is from outside Canada.

Additional Questions

Please do not hesitate to contact us with any questions you have about completing and submitting your package. You can call ITA Customer Service at 778-328-8700 in the Lower Mainland or toll-free at 1-866-660-6011 outside of the Lower Mainland. You can also send questions by email to customerservice@itabc.ca.

How Do I Complete the Application Form?

Each section on the *Application – Certification Challenge* form is listed below with instructions on how to complete it.

A. Personal Information

All parts marked with an asterisk (*) must be completed. If you do not have an ITA Individual ID number, it will be issued to you after we receive your application. If you have an ITA ID number but don't know it, leave it blank.

B. Work Experience in Trade

List the names of employers where you have gained direct, hands-on experience working in your trade. For each employer or period of self-employment you list, include the dates of your employment and total hours of experience.

List only the names of employers or organizations in this section. This includes your own company name for periods of self-employment. Employer address and contact information is entered on the *Employer and/or Statutory Declaration of Work Experience* form(s). **Note:** Your completed application must include an *Employer or Statutory Declaration of Work Experience* form for every organization or employer you list in this section.

Your total hours must not include time spent in management, supervisory duties or attending training courses, unless you were also working hands-on in the trade while performing those duties. Your total work experience will be the combined total of all hours that ITA is able to verify from the *Employer and/or Statutory Declaration* forms you submit. Your total number of hours must be no less than the minimum number required for your trade.

C. Challenge Application Fee Payment

Payment is required when applying to challenge trade certification. To challenge trade certification, you must pay a non-refundable \$120 assessment fee when your application is submitted.

You must attach to your application either:

- Cheque or money order payable to “Industry Training Authority”; or
- Proof of online payment made through the ITA website Exam fees and Payments page. Contact ITA Customer Service if you have any trouble with online payment.

Credit cards, cash, and debit are accepted by ITA Customer Service if you submit your application in person at the ITA office in Richmond. Do not send cash in the mail.

The practical assessment fee will be paid directly to SFI, contact them for method of payment.

D. Signature

Please read the “Privacy Statement” and “Certification and Authorization for Collection Use and Disclosure of Personal Information” carefully before signing and dating your application. Unsigned applications will be considered incomplete and will be returned to you.

How Do I Complete an Employer Declaration of Work Experience Form?

An Employer Declaration is confirmation of your hands-on work experience in the trade from your current or previous employer. In it, your direct supervisor verifies the hours you worked performing the trade, declares that he/she has seen you perform specific job tasks required for your trade, and certifies the information provided about you is accurate.

An *Employer Declaration of Work Experience* form must be completed for each employer listed in Section C of your completed *Application – Certification Challenge* form, and attached to your application. For example, if you listed two employers on your Application form, you would need to submit two Employer Declaration forms—one completed by each employer.

A. Applicant Name

Enter the legal name used in Section A of your Application form. The Applicant name on all Declaration forms in your package must exactly match the name used on the Application form. Enter the same Applicant name, as well as the Supervisor name, in the footer of all subsequent pages of the Declaration form.

The Applicant and Supervisor name are required on every page of the Employer Declaration so that if a page becomes separated from the complete application package, its owner can be identified.

B. Supervisor Contact Information

Enter the **current** contact information for the person who was your direct supervisor when you worked for this employer. This is who ITA will contact to verify your work experience. If the direct supervisor listed on an Employer Declaration cannot be reached by ITA, the hours you worked at that employer will not be included in your total number hours of work experience. If your direct supervisor is unavailable or unwilling to be contacted, use a *Statutory Declaration of Work Experience* to declare the hours worked at this employer.

C. Employment Information of Applicant

Enter the dates you worked for this employer, the number of hours of work experience, and your job title while at this employer. Make sure that the hours recorded are for actual hands-on trade experience gained and not for time spent in management, supervisory duties or attending training courses, unless you were also working hands-on in the trade while performing those duties.

Your total work experience is calculated by the adding the number of hours in this field on each Employer and/or Statutory Declaration form submitted with your application. The number of hours entered must be specific. Entries like “more than one thousand” or “lots” are not acceptable.

D. Skill Assessment

The Skill assessment form lists job tasks that a journey person in the trade may or may not have experience in as well as how often they have used their skills.

Supervisors completing this form must check one of the boxes in the Declaration Response column to indicate whether or not they have personally seen the applicant perform the job tasks listed. Your total experience will be determined based on the total responses in all Declaration forms submitted with your application.

Toll Free: 1-866-660-6011
customerservice@itabc.ca

E. Confirmation of Prerequisite Credentials or Certificates

Section E will list the certification(s) required. An employer completing a Declaration form must verify that the applicant has achieved the required certifications. Please do not submit paperwork for training or certification earned outside Canada as it will not be reviewed. Listed below are the prerequisites for TAG.

- Marine Basic First Aid
- Small Vessel Operator Proficiency (SVOP)
- Marine Emergency Duties (MED) A1, A2 or A3
- Restricted Operator's Certificate – Maritime (ROC-M)

F. Supervisor Signature

The direct supervisor of the applicant must personally sign and date this section. ITA cannot assess unsigned declarations of work experience.

How Do I Complete a Statutory Declaration of Work Experience?

A Statutory Declaration is a declaration of work experience made by you.

A Statutory Declaration is required when there is no direct supervisor available to attest to your work experience. This may be the case for periods when you were self-employed, or if a previous supervisor is unavailable or unwilling to complete an Employer Declaration. References must be provided with all Statutory Declarations. If your work experience cannot be verified with a reference or direct supervisor, who have witnessed your work, your application will be denied.

If you listed more than one period of self-employment in Section C of your Application form, the self-employment hours can be combined on one Statutory Declaration form. This is not the case for periods of employment that cannot be verified with a former supervisor; you must submit a separate Statutory Declaration of Work Experience form for each employer. For example, if you listed one period of self-employment in Section C of your application form, and had two periods of employment for which your direct supervisor could not be contacted, you would submit two Statutory Declaration forms. The completed form(s) must be attached to your application.

A. Applicant Name

Enter the legal name you used in Section A of your Application form. Enter the same name in the footer of all subsequent pages of the Declaration form. Your legal name is required on every page of this form so that if a page becomes separated from the rest of the application package, its owner can be identified.

B. Supervisor or Self-Employment Contact Information

Enter the contact information for the former employer who is not able to complete an Employer Declaration, or your own contact information if you are declaring a period of self-employment. The Business Registration Number is only required if you are declaring hours for a period of self-employment.

C. Employment or Self-Employment Information

Enter the dates you worked for the employer listed in Section B, the number of hours of work experience gained at that employer, and your job title during this period. Make sure that the hours recorded are for actual hands-on trade experience gained, and not for time spent in management, supervisory duties or attending training courses, unless you were also working hands-on in the trade while performing those duties.

Your total work experience will be calculated by the adding the number of hours in this field on each Employer and/or Statutory form submitted with your application. The number of hours entered must be specific. Entries like “more than one thousand” or “lots” are not acceptable.

Toll Free: 1-866-660-6011
customerservice@itabc.ca

D. Reason for Statutory Declaration

You must indicate why a Statutory Declaration is required to declare these work hours. A statutory declaration can be used only when:

- All or part of your described work history is self-employment
- An employer is no longer in business **and** your direct supervisor cannot be located
- Your direct supervisor has died, and complete employment records are not available
- The employer is outside Canada, and getting documentation has not been possible
- Records destroyed by fire or natural disaster
- A supervisor refuses to complete an Employer Declaration for you

If you have been unable to obtain an Employer Declaration for any portion of your non-self-employed work experience, describe the steps you have taken to try and obtain it. If sufficient evidence of steps taken is not provided, your application may not be approved.

E. Statutory Declaration of Skill Assessment

Check Frequently, Occasionally or Never to indicate whether or not you performed the job tasks listed during the period of employment covered by the form. Your total work experience will be determined based on the total responses in all Declaration forms submitted with your application.

F. Confirmation of Prerequisite Credentials or Certificates

Section F will list the certification(s) required. An employer completing a Declaration form must verify that the applicant has achieved the required certifications. Please do not submit paperwork for training or certification earned outside Canada as it will not be reviewed. Listed below are the prerequisites for TAG.

- Marine Basic First Aid
- Small Vessel Operator Proficiency (SVOP)
- Marine Emergency Duties (MED) A1, A2 or A3
- Restricted Operator's Certificate – Maritime (ROC-M)

G. Applicant Signature

The applicant must sign the Statutory Declaration. ITA cannot assess unsigned declarations of work experience.

H. References

References must accompany all Statutory Declarations. Enter names and contact information for at least three individuals who can verify your self-declared work experience in this trade for the dates you list in Section C. References may include suppliers (maximum one), former employees (maximum one), contractors, or regular, long-term clients. Each individual listed will be contacted by ITA to verify the information provided on your application. If your work experience cannot be verified, your application will be denied.

The assessment process for Tidal Angling Guide, once your challenge application is approved, consists of a multiple-choice Certificate of Qualification exam. The exam is based on 18 units that make up the TAG Occupational Performance Standards. For specific information on what is tested, please review the TAG Exam Weighting Chart on the Tidal Angling Guide page.

For more detail on the topics covered in each of the units of competency, please consult the ITA website – www.itabc.ca and consult the Occupational Performance Standards for Tidal Angling Guide.
